

```
// The name of the configuration file.
CONFIG-FILE="Test3.cff"

// The number of allocations in this file,
// the number of tasks per allocation, and
// the number of processors per allocation.
ALLOCATIONS-DATA=5,5,3

// The set of allocations.
// The ith row is the allocation of tasks to the ith processor.
// The jth column is the allocation of the jth task to a processor.
ALLOCATION-ID=1
0,1,0,1,1      error 1  the runtime (10.00) of an allocation (ID=1) is greater than the expected program runtime (4.50)
1,0,0,0,0      error 2  processor (ID=1) of allocation (ID=1) has 2 GB RAM but requires 4 GB RAM
0,0,1,0,0

ALLOCATION-ID=2
0,1,0,0,0      error 3  the energy (328.94) of an allocation (ID=2) differs to the energy value (233.94) of another allocation (ID=1)
1,0,0,1,0      error 4  processor (ID=1) of allocation (ID=2) has 2 GB RAM but requires 4 GB RAM
0,0,1,0,1

ALLOCATION-ID=3
0,0,1,0,0      error 5  the runtime (8.33) of an allocation (ID=3) is greater than the expected program runtime (4.50)
1,1,0,1,1      error 6  the energy (221.81) of an allocation (ID=3) differs to the energy value (233.94) of another allocation (ID=1)
0,0,0,0,0

ALLOCATION-ID=4
0,0,1,0,0      error 7  the energy (283.48) of an allocation (ID=4) differs to the energy value (233.94) of another allocation (ID=1)
1,1,0,1,0
0,0,0,0,1

ALLOCATION-ID=5
0,0,1,0,0      error 8  the energy (283.48) of an allocation (ID=5) differs to the energy value (233.94) of another allocation (ID=1)
0,0,0,0,1
1,1,0,1,0
